DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 7-9, 32, and 34 rejected under 35 U.S.C. 102(b) as being anticipated by McCaskey, U.S. 1,314,600.

Regarding claims 1, 2, 4, 7 and 32, McCaskey discloses a first (a link 1) having a plurality of receiving extensions (notches 7,4) and second tubular (a link 1) having a plurality of insertion extensions (3) axially inserted into the receiving extensions (p. 1, lines 74-89). McCaskey discloses the insertion extensions having an expanded region (3a) and the receiving extensions having a connector opening (4,6;7,6) with a narrow outer portion (6) and wider inner portion (7,4) receiving the expanded region. The prior art device, having all the structural limitations and in its normal and usual operation, would necessarily perform the method steps claimed. McCaskey discloses a slide cover (11) and sand barrier (11,17).

As to claims 8, 9, 33, and 34, McCaskey discloses the sand barrier (1) inside and outside (11) the tubulars.

Claim 41-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Matthews et al., U.S. 4,706,659.

Regarding claims 41-44, Matthews et al. discloses a first and second tubular (31) a slide cover (56) slidably mounted on the tubular members to secure the plurality of interlocking extensions (45) into interlocked engagement.

Allowable Subject Matter

Claims 16-18 and 20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including the sand barrier about the connector.

Conclusion

Response to Arguments

Applicant's arguments with respect to claim 1-4, 7-9, 16, 17, 32-34 and 41-43 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on

Art Unit: 3672

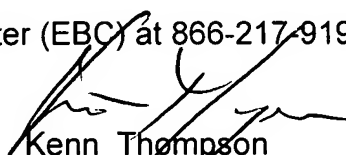

the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
